Re: 02-278 (Telephone Privacy)

Please DO NOT change/repeal Indiana's "Do Not Call" law in favor of a more lax national version! Leave states the option of keeping their own law if it more strict.

Prior to the passage of our law in Indiana, it was not unusual to get 40-50 unwanted, intrusive harrassing telemarketing calls every month. Now, we get only one or two (which is still too many!).

Millions of hoosiers have already signed up for this law, and continue to do so, showing its popularity and usefulness.

Thank you for your time and consideration.
